A Model for Energy-Saving in an IoT Smarthome accounting for End-User Convenience

Alistair Francis Bowman Grevis-James

November 2019

Abstract

The preface pretty much says it all.
Second paragraph of abstract starts here.

Contents

0.0.0.1 Algorithm 1

Text

Algorithm 1: Extraction of data from S1 Activities dataset

Result: Write here the result
Input   : [array1]
Output: Write here the output

1 while *While condition* **do**
2   instructions
3   **if** *condition* **then**
4   instructions1
5   instructions2
6   **else**
7   instructions3
8   **end**
9 end
